<sup>(1)</sup> Receipts from customers represents Gross Transaction Value grossed up for refunds, fraud and chargebacks and adjusted for timing differences associated with payments being received through payment gateways up to two days after transaction occurs.

<sup>(2)</sup> The relationship between receipts from customers and fulfiller and paid marketing expenses, artist earnings and sales taxes, is distorted by receipts from sales being received in the December quarter with the payments for the cost of those sales falling in the March quarter, positively impacting the cash flows in December and negatively in March.
